EDUCATION

Electronics and Communication Engineering
Jaipur Engineering College & Research Center(JECRC)

08/2019 - 08/2023

12th Senior Secondary Education
St Teresa School, Jaipur

04/2018 - 06/2019

PERSONAL PROJECTS

React.js Todo List with Custom API and Swagger Integration (08/2023 - 09/2023)
- Created a highly responsive Todo List application in React.js, integrating advanced database migration techniques for seamless data management.
- **Technologies Utilized:** React.js, Node.js, Swagger, Express.js, Database Migration.
- Engineered custom APIs in Express.js, optimizing data processing and storage efficiency through strategic database migrations. This initiative streamlined operations, resulting in a notable 30% boost in productivity.
- Implemented robust security measures by incorporating API key authorization within Swagger documentation, ensuring airtight security protocols for API access.

E-Commerce Website (Amazon Clone) (01/2023 - 02/2023)
- Created an website resembling Amazon, using React.js and Css.
- Implemented secure user authentication features through Firebase, guaranteeing safe user login and registration processes, enhancing the platform's security and user trust.

WORK EXPERIENCE

Software Developer Trainee
Volyo Solutions

07/2023 - Present   *Jaipur*

Achievements/Tasks
- Proficiently designed interactive web applications using React.js.
- Implemented state management, component-based architecture, and modern JavaScript practices for user interfaces and improved user engagement.
- Integrated AWS services to enhance web app scalability, reliability, and security. Utilized AWS services for data storage, processing, and serving, improving system functionality

Ignite Training Program
LTIMindtree

03/2023 - 05/2023   *Remote*

Achievements/Tasks
- Completed an intensive 11-week software development training program covering Java, SQL, .NET, JavaScript, and TypeScript. Mastered key concepts including object-oriented programming, database management, and front-end web development.

SKILLS

React.js   Node.js   MySQL   Express.js   OOPs

C++   C Programing   Web Development   JavaScript

Java   HTML   CSS   Next.js

Data Structure and Algorithm   Database   STL

Front-end Development

ACHIEVEMENTS

- Taken part in a technical hackathon 3 times.
first time as a representor, second and third time as a leader.

- One of the Top Ten finalists in SBH (Smart Business Hackathon).

- Content creator in social groups for 2 years.

-have 250+ points in geekforgeeks.

-5 star in java in hackerrank.

-Organized 3 and many webinar.

CERTIFICATES

Web Development (06/2021 - 07/2021)
- Completed the Web Development training on INTERNSHALA.

Web Development (07/2020 - 08/2020)
- Completed the Web Development course on Udemy offered by Andrei Neagoie.
